

### Timeline For Dr Kelly

Hey! Toil for government &  
you'll do fine

until they come to fetch you  
for their trifle.

Or as Melville's Bartleby voiced:  
"I know you and want nothing  
to say to you."

Near the end, the gorge surges  
too high for speech.

### The Soldier

I have murdered other  
mothers' sons  
for cause.

The cause  
will change

but in its frame,  
it's one.

-----

The chefs closed the kitchen

and cooked up a war.  
#2 approved, his buddies  
deep-invested. #1 was

frat-boy bored, yet spoke  
to God, who upheld heaven-

sent dismemberments of strange-  
ly olive children.
